SETH OLSON

OBJECTIVE	Seeking an excellent company to enhance my skills on developing efficient, user friendly and wildly successful creative applications. I would also like to contribute to a brilliant technical team, help create new opportunities, and to work in a healthy environment.

SKILLS

Programming

-Web: HTML5(2 years), CSS3(2 years), MySql(1 year), Javascript(4 months), Ruby on Rails(4 months), MVC (4 months)

-Core Languages: C(4 years), C++ (4 years), Java (4 years)

-(Mutexes, Semaphores, Forks, Pipes, gcc and win32api, 4 months)

EXPERIENCE

CENTER FOR GREATER GOOD   **MAY 2013, TO DECEMBER 2013**

   Project Manager / Dev Part time – School Semester, full time - summer

-Lead a team of three to design and develop www.centerforgreatergood.com, and http://institute.presidio.gov.

-Worked with senior management to design a Salesforce database with over 5000 company contacts, trained new employees and created software tutorials.

CENTER FOR GREATER GOOD,   **MAY 2010, TO APRIL 2013**

   Co-Lead R&D Part time – School Semester, full time - summer

Researched funding leads on a continual basis to provide supplemental information for implementation of client projects regarding policies, health, low income housing, and social services. Created measurable outcomes combining aforementioned research from scientific journals which led to the publication of The Good Life Guidebook for Impact Measurement found at:

 http://www.slideshare.net/CenterforGreaterGood/good-life-guidebook-by-center-for-the-greater-good

-My research and publication helped secure $135 million dollars from top investors such as Google, Aegon, Vitus Group, and Michaels developers which we brought together through many meetings and a solid plan, to redevelop the Hawaii Kuhlo Par Terrace.
